

Open 1st Call for ECO4ALL COST Action Mobility and Conference Grants

3rd Grant Period

The main aim of the ECO4ALL Action is to contribute to the information, reflection and dissemination activities for youth at large, academics, young researchers, staff of the public administration, business environment and for civil society as a whole regarding the circular economy that works for consumers; therefore ECO4ALL aims at promoting the understanding of sustainable consumption, the conservation of resources and the prevention of waste, as well as the responsibility of manufacturers in the design and marketing phases, as one of the most important prerequisites towards consumer protection through reducing, reusing, repairing.
